For your information I wish to make the following remarks in connection with the attached application for permission to move personal effects to the USA.

We married on 12/22/1928 and acquired our set of household furnishings in the course of the year 1929. Since 1929 we have always occupied an apartment of 4 rooms and a kitchen.

The acquisition of replacement pieces was necessary only in small quantities for household linens. Our stock of clothing has been largely replaced since 1933 in the natural course of things.

We have not acquired anything specifically for our emigration. Our furnishings and our linens are adequate. We are not taking all of our furnishings with us. We have no financial assets and have always lived on the income from our work, from which we have accumulated a small amount of savings. The acquisition of clothing in the last year has been at the same level of necessity as in prior years.
